

## **Improvement Action Plan**

Healthcare Improvement Scotland: **Unannounced Inspection** 

## The Queen Elizabeth University Hospital campus, NHS Greater Glasgow and Clyde

7-8 and 20 June 2022

## Improvement Action Plan Declaration

It is the responsibility of the NHS board Chief Executive and NHS board Chair to ensure the improvement action plan is accurate and complete and that the actions are measurable, timely and will deliver sustained improvement. Actions should be implemented across the NHS board, and not just at the hospital inspected. By signing this document, the NHS board Chief Executive and NHS board Chair are agreeing to the points above. A representative from Patient/Public Involvement within the NHS should be involved in developing the improvement action plan.

**NHS board Chair**

Requirement 1 / Standard 3 NHS Greater Glasgow and Clyde must ensure that specialist infection prevention and control advice is recorded within the ward-level patient care record to inform care planning. This will ensure that patients are well informed, including information on when their isolation period will end.	The IPCT will in addition to ICNet, record all Infection Prevention and Control advice on the patient notes section of Clinical Portal (electronic system). This will be a change from the current process of documenting the majority of our advice in the ward level held paper patient case notes. This record will include the estimated date of removal from isolation if appropriate.	28.11.22	Associate Nurs Director IPC IPC Team	e The IPCT at p document Ir Control advi relation to C other winter Respiratory Clinical Porta currently wo updating and standardisin notes for all before fully the electron	ifection ce in OVID and Viruses into al. Circulation type (internal/external): Internal and external		

Requirement 4 / Standard 8 NHS Greater Glasgow and Clyde must take steps to improve the governance and reporting of critical systems within the built environment. This should include but not be limited to:	<ul> <li>a) A more robust system to ensure the infection prevention and control team is informed of ventilation performance validation reports in real- time to ensure any non- compliance that may impact infection control is identified and actioned at the earliest opportunity.</li> </ul>	and Infection Control will work collaboratively to ensure a universal SOP is created and implemented to deal with non-compliant ventilation performance.	November 2022 30/11/22	Assistant Director of Estates Assistant Director of Estates	Complete November 2022 In progress
	<ul> <li>b) When approval is sought from committee members within the infection prevention and control governance structure, this is treated as a priority for all members with clear recorded evidence of approval or non-approval by required committee members. This will ensure clear accountability within infection prevention and control governance structures.</li> </ul>	The IPC Committees (including the Board Infection Control Committee (BICC), The Acute Infection Control Committee (AICC) and the Partnership Infection Control Support Group (PICSG) TOR have been reviewed and a section on this action has been included to ensure that approval is sought from committee members on all policies and guidelines to ensure clear accountability within IPC governance structures. The TOR of each Committee will be approved at the next relevant committee meeting (dates noted in the next column). Circulation type (internal/external): Internal and external		

Requirement 4 / Standard 8 (continued) NHS Greater Glasgow and Clyde must take steps to improve the governance and reporting of critical systems within the built environment. This should include but not be limited to:		<ul> <li>b) An action will be included in the action log following the approval of every policy/guidance or protocol to monitor the consultation, implementation and the communication of the policies across NHSGGC Services.</li> </ul>	PICSG 02/12/22 AICC 06/12/22 BICC 15/12/22	IPCT Business Manager	In progress
	c) Ensure attendance by members of committees in the infection prevention and control governance structure, such as the NHS board water safety group, is a priority. When attendance is not possible, a deputy should attend, as recommended by the Vale of Leven Hospital Inquiry Report.	The requirement for the attendance of the Committee members or an adequate deputy has been included in the TOR of all the IPC Committees (BICC, AICC and PICSG) to ensure adequate representation of all relevant parties at the meetings to enable informed decisions to be made. The TOR for each committee will be submitted for approval at the relevant Committee at the Committee's next meeting – dates noted in the next column. Requirement 4 / Standard 8 (continued) NHS Greater Glasgow and Clyde must take steps to improve the governance and reporting of critical systems within the built environment. This should include but not be limited to:	d) The governance water management structure is either fully applied or adapted to reflect the requirements of the reporting structure to ensure the NHS board are fully informed of any NHS board water safety group issues.	All minutes passed to BICC. Exception reports from EFM go to AICC and BICC. Members of the IPCT sit on the Board Water Safety Group & Infection Control & Built Environment Group. EFM reps sit on AICC, PICSG and BICC. Information is therefore shared between all of the governance groups.	June 2022	Assistant Director of Estates			Complete June 2022
	e) Review the system currently in place for quarterly reporting of flushing of water outlets to ensure a robust and effective process.	<ul> <li>A report is produced as part of the AICC submission from Operational Estates, details or all WSO1a returns are recorded and escalated to members of the AICC group. Any escalations are then sent to ICBEG and BICC forums for discussion and action.</li> </ul>	June 2022	Assistant Director of Estates			Complete June 2022
		<ul> <li>b. A training session is to be delivered on the 14<sup>th</sup> December by GG&amp;Cs Authorising Engineer around roles and responsibilities of Water Management including the importance of flushing. The course is open to all colleagues with those responsibilities, invites have been sent.</li> </ul>	December 2022	Assistant Director of Estates	Invites hav	ve been sent in scope	In progress

NHS Greater Glasgow and Clyde should consider the method of sharing information with patients about their invasive devices. This will support patients to proactively care for their devices and be aware of risks and signs and symptoms of infection.	This will be considered though the work plan of the IPCQI Operational Group and will involve patient consultation and review of best practice across Scotland. Following this consideration and consultation, implementation and impact assessment will be taken forward through tests of change via Sector led SAB groups.		IPCQI Operational Group IPC Nurse Consultant/Chief Nurse South Sector Sector led SAB groups.	
Rec B/ Standard 8 NHS Greater Glasgow and Clyde should consider a review of the electronic estates reporting system, to enhance the prioritisation allocation and communication for both the estates team and staff within the clinical areas.	Currently FM First is used in a number of boards in NHS Scotland. Discussions have taken place this week with the company who provides this system to look at the possibility of modifying the front end to allow clinical staff to highlight priorities. Estates issues will continue to be reported at the site huddle meetings which occur throughout the day and which members of the estates team attend.
