

National Cancer Medicine Advisory Group (NCMAG) Programme

**Membership of
NCMAG Stakeholder Groups**

Version | 1.0

Published | November 2024

NCMAG Council

This group makes decisions on proposals for the use of medicines. Members are clinicians, pharmacists, NHS board staff, and public partners. Public partners provide views from the Scottish public. The group has a wide range of experiences and views. This ensures that decisions are based on many perspectives. The membership is listed below.

Terms of reference are available on request. Please contact his.ncmag@nhs.scot.

NCMAG Programme Team

Our team includes experts in pharmacy, health economics, research, and project management. We gather and assess evidence. This supports decision-making by the Council.

Declarations of interest

Impartiality is very important in the process. All members and the team must state anything that might affect their decision making. There are steps to take on what should happen if someone may be impartial.
